WILSON ASKS REPEAL OF WAR-TIME PROHIBITION AND RETURN OF RAILWAYS AND WIRE SYSTEMS

SWEEPING RECOMMENDATIONS ARE CARRIED IN PRESIDENT WILSON'S MESSAGE TO CONGRESS AND CONSIDERABLE SURPRISE IS MANIFESTED BY MANY CONGRESSMEN AND SENATORS.

WOULD EXEMPT WINE AND BEER ONLY

INSISTS THAT RAILROADS OF THE COUNTRY BE RETURNED TO OWNERS NOT LATER THAN FIRST OF NEXT YEAR, AND URGES NEW TARIFF LAWS WITH TEETH IN THEM—DOCUMENT UNIQUE.

WASHINGTON, MAY 20.—(Associated Press)—President Wilson, in his message to Congress today, recommended repeal of the war-time prohibition law—so far as it applies to wine and beer only; announced definitely that the railroad systems and telegraph and telephone lines would be returned to private ownership; urged a revision of war taxes, particularly to abolish the manufacture and retail sales excises; and outlined generally a program respecting labor.

These were the high spots of the President's message, cabled from Paris. Besides that, he again urged enactment of the woman suffrage constitutional amendment; recommended that the tariff laws be supplied with teeth to protect American industries against foreign attack; spoke for legislation to facilitate American enterprise through the expansion of shipping, and backed Secretary Lane's program for land for returning soldiers.

Of the Paris peace conference and the League of Nations, the President merely said it would be premature to discuss them or express a judgment. He also avoided discussion of domestic legislation at length because of his long absence from Washington.

DOCUMENT IS FIRST OF ITS KIND

Congress heard a unique document, the only one of its kind ever transmitted across the ocean from a President on a foreign shore. For the first time in years, it heard a Presidential message read by a reading clerk instead of assembling to hear the President deliver his address in person.

The recommendations for the repeal of war-time prohibition and for the return of the railroad and wire systems, while not unexpected by some, contained the greatest element of surprise and provoked the most widespread comment of the many tasks set before Congress by the President.

In his reference to prohibition, the President did not enter extensively into the considerations involved. Demobilization, he said, merely "has progressed to such a point that it seems to me entirely safe now to remove the ban upon the manufacture and sale of wines and beers."

This ban, laid several months ago to become effective on July 1, could only be removed, the President said, by Congressional enactment.

COMES AS SURPRISE

His recommendation regarding return of railways and wire lines was the first authoritative declaration by the Administration of its future policy and greatly surprised many members who had interpreted the developments of the past few months to mean that President Wilson eventually would propose some form of permanent government operation.

On the contrary, the directness of the President's declaration on that point left no doubt that he was through with any possible scheme of permanent retention.

"The telegraph and telephone lines," said the message, "will of course be returned to their owners as soon as the transfer can be effected without administrative confusion. The railroads will be handed over to their owners at the end of the calendar year."

In the case of each, the President asked for legislation to make easier the readjustment necessitated by the change.

New Tariff Rates.

In his recommendation for readjustment of taxation, the President made it clear that he did not expect a fundamental readjustment of the democratic tariff rates that have been operative for the past six years. He asked for tariff changes only to pro-

tect special new interests, like the dyestuffs industry.

Some reductions advocated in war-time excess profits taxes and the present taxes on retail sales, the President thought could be dispensed with entirely.

Congress May Oppose.

What will be the reply of the republican Congress to these proposals became at once the topic of discussion everywhere about the capitol. In returning the railroads, it generally was conceded, the republican leaders will readily give the President their cooperation.

But as to prohibition and tariff and internal revenue taxation, the case was more doubtful. Those are problems on which no very clear sentiment apparently has been formed in either of the great parties.

Labor Recommendations.

The recommendations regarding labor were general, but the President called attention for the need of a partnership between capital and labor and a genuine "democratization" of industry.

Protect U. S. Industries.

On tariff revision, the President said the United States should have the means of properly protecting itself when there was danger of discrimination against it by foreign nations.

'LAME DUCK' READY FOR FINAL TRIP

Reaches Ponta Delgada and Prepares for Flight to Portugal to Complete Trip.

MAKES SMALL FLIGHT

N. C. 3 Unable to Continue Transatlantic Flight Announces Admiral Jackson.

(By Associated Press)

Washington, May 20.—The naval seaplane N. C. 4 arrived at Ponta Delgada from Horta at 10:24, Washington time, today.

The official report to the navy department from Rear Admiral Jackson showed the big plane covered the distance of 150 miles in one hour and 44 minutes, or at the rate of more than 85 miles an hour.

(By Associated Press)

Washington, May 20.—The naval seaplane N. C. 3 will not be able to resume the trans-Atlantic flight. A message to the navy department from Admiral Jackson at Horta stated the damage resulting from the buffeting she received when forced to land while nearing the Azores had definitely put her out of the race.

Her hull was leaking and one of the engine struts was badly damaged.

GERMAN REPLY IS FORTHCOMING ON WEDNESDAY

No Extension of Time has Been Granted.

Ultimate Acceptance of Terms Expected.

(By Associated Press)

Paris, May 20.—The German plenipotentiaries will deliver their observations on the peace treaty terms Wednesday. No extension of time for replying has been given them.

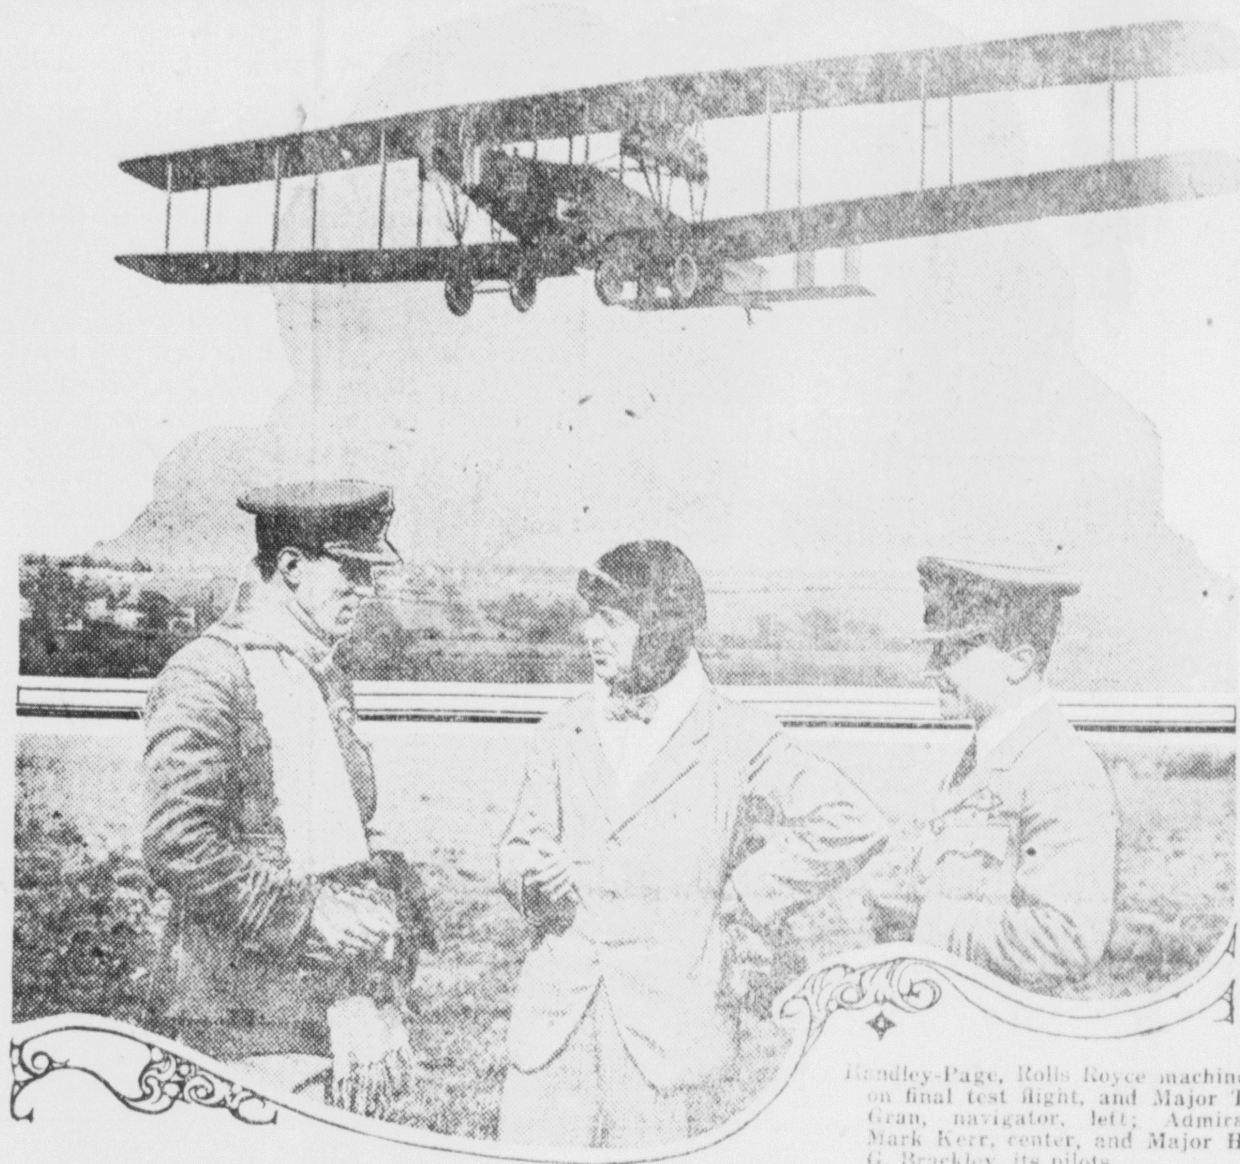

The general impression in peace conference circles is that the Germans will ultimately sign the treaty. According to Berlin, the contents of the reply will adhere closely to the German version of President Wilson's fourteen points.

GEN. PERSHING'S VISIT DELAYED

(By Associated Press)

London, May 20.—The proposed visit to England of General Pershing, the American commander-in-chief, has been indefinitely postponed. It is inferred here the postponement is due to the official view that it would be inadvisable for the commander to leave the Rhine until the Germans have signed the peace treaty.

HUGH HANDLEY-PAGE PLANE IS READY FOR OCEAN FLIGHT

Packed in eight large cases, the giant Handley-Page, Rolls Royce airplane, another entrant in the trans-Atlantic flight, arrived re-

Handley-Page, Rolls Royce machine, on final test flight, and Major T. Gran, navigator, left; Admiral Mark Kerr, center, and Major H. G. Brackley, its pilots.

British Admiralty Points to Ominous Silence Attending Flyer's Departure.

PROBABLY PERISHED.

Frail Equipment of Daring Aviator Inadequate to Withstand Strain.

(By Associated Press)

London, May 20.—No definite news of the whereabouts of the Sopwith airplane carrying Harry Hawker and Lieutenant Griever having been received here, it was believed in Admiralty circles here this afternoon that the daring aviators had come to grief soon after they left the shores of New Foundland Sunday afternoon.

According to all reports no message came from the plane's wireless—not even a note of farewell—and it is believed Hawker would have sent some message unless he met with an accident soon after the start.

Off the Irish coast the weather was bad today and there were no further rumors that Hawker's machine fell into the sea.

Complete Embarkation Begins of 80th and 36th Divisions

(By Associated Press)

Brest, May 20.—The steamers Rotterdam, Finland, Mobile and New Jersey are sailing for the United States today, carrying more than 20,000 troops.

This completes the embarkation of the Eightieth Division and begins that of the Thirty-sixth division.

MIDDLE OF JUNE FIXED FOR SIGNING

Allies Probably Will Not Know Until June 8th Whether Germany Accepts Terms.

VOLUMINOUS REPORTS

Rejoinder of Allies to German Proposals Expected About June 1st.

(By Associated Press)

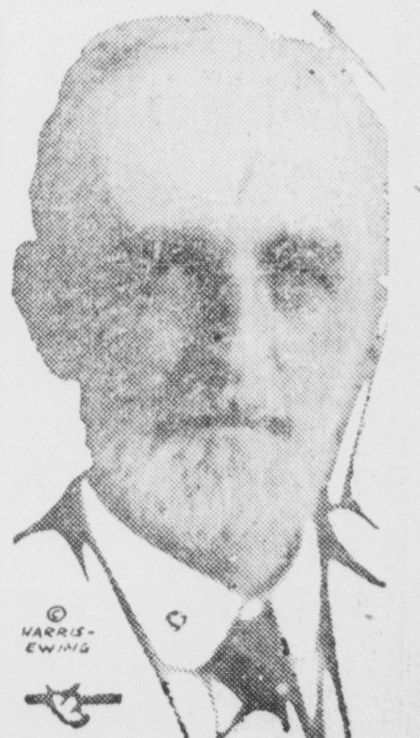

The treaty of peace may not be signed until some time near the middle of June, according to advices from Paris. It probably will be known by June 8th, however whether the Germans will accept or reject the terms.

Before the 15-day period given to the Germans to make replies to the terms expires on Thursday of this week, it is expected the enemy delegation will submit counter proposals so voluminous and elaborate that it will take the conference until June 1st to frame a rejoinder.

After that the Germans, it is said, probably will be given a week to file final replies. This will be about June 8th and the treaty must be engrossed in final form for signing after that date.

The German delegation was called together yesterday by Count von Brockdorff-Rantzau who laid before the delegates the instructions received at Spa. It is said an announcement has been prepared by the Germans but referred to Berlin for approval.

Sir Arthur Newsholme, M. D.

Sir Arthur Newsholme, M. D., is at the head of a delegation of distinguished European personages who are now touring the U. S. to study child welfare and other social and industrial conditions. They are also attending a child welfare conference conducted in Washington by the department of labor. Sir Arthur has been instrumental in saving the lives of thousands of babies in England and is recognized internationally as an authority on the causes of infant mortality.

INVESTIGATING THEFT IN AUTOS

A rigid investigation is being made into the theft of the two Ford automobiles in this city last Friday evening, and which have been recovered under somewhat unusual circumstances, the Waters car in Greenfield and the Browning car in Chillicothe.

It is understood that the Waters car was purchased by a man in Greenfield, and that the man who purchased the car recovered his money from the man who had sold the machine to him. It is said this fellow resides in Chillicothe, and if such is the case the local authorities here are determined that the fellow who sold the car must do some satisfactory explaining.

Former Sheriff Jones went to Greenfield Tuesday morning with the intention of going to the bottom of the affair.

It is understood that little or no effort was made by authorities in Greenfield and Chillicothe until they learned a reward had been offered for return of the machines. This speedily turned up the Browning car in Chillicothe.

WM. M'KITTERICK CASE UP JUNE 9TH

William McKitterick, formerly of this city, charged with the murder of Bell Manns Green, in Dayton a few months ago, will be tried in the common pleas court of Montgomery county on a charge of first degree murder, the trial to open June 9th.

McKitterick will be represented by Attorney Tom S. Maddox, of this city, and other counsel of Springfield will assist him in the defense.

McKitterick, it is alleged, cut the woman's throat after some difficulty with her at her apartments in Dayton, and she died within a few minutes thereafter, burial being made in this city where her parents reside.

"KEY MONEY" IS PAID IN ENGLAND

London, April 22—(Correspondence of the Associated Press)—In many districts, and particularly in York-

shire where the dearth of houses is acute, the practice of paying "key money" is growing. So keen are prospective tenants to get into a house directly it is vacant that as much as \$50 to \$100 is offered to the occupier for the key, this transaction generally carrying with it the understanding that the land lord will accept the succeeding tenant.

Will Germany Sign

President Ebert is quoted as stating that Germany will not sign the treaty of peace which the allied and associated nations have presented.

We have never believed that Germany would refuse to sign the treaty, no matter if it was severe in its provisions and permanently dismantled the German war machine and barred the construction of a new war engine of destruction. President Ebert's statement does not change our views in that respect. It is impossible to see how the German authorities can dare to take chances on refusing to sign the treaty and come to terms no matter what those terms may be.

The world has expected to hear from Germany, during the time given for consideration of the treaty, a great amount of loud and explosive comment. The allied nations, however, have been just as confident that before the time limit expired the talk would subside and the Hun signatures would be affixed in due and binding form as they were that the world would be compelled to listen to the last expiring detonations of senseless German propaganda.

There is but one discouraging feature in connection with the present situation and that is the prediction of Frank Simonds that Germany will sign up. Mr. Simonds has been so consistently wrong in his predictions that, if there was anything that could "jinx" the signing of the treaty his prediction would do it.

It is not likely, though, that even Mr. Simonds' prediction can sidetrack so sure a thing as Germany's signing up.

A Great Sportsman

Harry Hawker, the Australian flyer, has failed, this time, in his daring attempt to fly from land to land across the ocean. If he had succeeded in reaching his goal—the coast of Ireland—in a straight-away non-stop flight of approximately nineteen hundred miles, he would have won a fortune of nearly one hundred thousand dollars and undying fame as an aviator.

Hawker's fame, however, is made now. Never in the history of aviation has his effort been approached for sheer daring, nerve and intelligence. He is a game sportsman through and through. "Hopping off" from the coast of New Foundland in nothing but a light, one engine land flying plane, with no boats save a light collapsible affair at the last moment dropping his landing trucks to lighten the weight, he set off in his Sopwith on the long flight.

Many Americans must confess to being just a little unpatriotic in pulling for the daring flyer to reach his goal ahead of all others. Everyone loves a good, clean, game sportsman and that's what Harry Hawker proved himself to be.

Forced to come down, into the ocean, when within one hundred miles of the Irish coast, everyone the world over, who admires bravery and daring, felt as if they had lost.

We must all hand it to 'Arry no matter who wins out eventually.

A New Hospital

The purchase Saturday by The Fayette Hospital Company, of the Persinger homestead in the Mill-wood section of the city, seems to insure that provision will soon be made to fill a long felt need—a hospital adequate in size and equipment to meet the requirements of the community.

Our present hospital facilities have been splendid in all ways except capacity and location. The property purchased Saturday seems to meet both requirements.

Located in a quiet section of the city, surrounded by capacious and naturally beautiful trees, the property, when remodeled and refitted, gives every promise of making an ideal hospital.

The local company, or association, has done wonders thus far, under some serious handicaps, in making provision for the care of the sick of the county.

The community hospital is no longer a luxury—no longer intended only for the most desperate cases. People have learned that the place for sick folks, no matter what the affliction, is a properly equipped and managed hospital where every comfort and attention will be provided.

It has grown almost impossible in present social and industrial conditions to adequately care for the sick at home. Progress made in late years in the treatment of the sick and afflicted has made it next to impossible to care for the sick and injured at home. Later methods require so much in the way of nursing and attention that it is impossible to obtain proper treatment save in a hospital.

As a consequence the hospital has come to be one of the imperative needs of the community.

POETRY FOR TODAY

YOU CAN! OF COURSE YOU CAN!
Would you make life a full success?
You can!
And win the gifts that build and bless?
You can!
Resolve this day to make the start;
Unite the strength of hand and heart.
And make your "head-piece" do its part—
You can! Of course you can!

Say to yourself: "I'm bound to win!"
You can!
Keep saying it through thick and thin.
You can!
Pick out the task you ought to do,
Then stick right at it, stanch and true,
And, come what will, you'll see it through—
You can! Of course you can!

You are the master of your will.
You can!
You make conditions, good or ill.
You can!
Think hard! And, with your reason clear,
Select the course you mean to steer;
Then hold it—day, week, month and year—
You can! Of course you can!

Right here and Now's the place to start,
You can!
There's work a-plenty! Do your part!
You can!
This minute, waiting at your door,
Are opportunities galore;
With wisdom, garner in your store—
You can! Of course you can!

THE GREATEST GIFT OF ALL

What a pleasure it is to give your family things they will enjoy. But how many expensive gifts gives pleasure for a short time and then are forgotten! What wouldn't you do to give them something that they would appreciate for a lifetime?

Why not give them the one big thing that above all other will express to them your love and care and be a never ending source of pleasure, comfort and contentment to your wife, your children and yourself—a home?

BUILD A HOME FIRST

Jacob A. Riis has said: "Upon the home rests our moral character; our civic and political liberties are grounded there; virtue, manhood, citizenship grow there. American citizenship in the long run will be, must be, what the American home is."

Just stop and think what all this means. Build that home of your own. Come in and let us furnish plans and suggestions. Our service is free.

NOTICE

The attention of the wide-awake people is called to the fact that energetic, conscientious work, resultant of the world war is still a necessity.

Troops must yet be brought home; the sick, helpless and maimed must be cared for; we must discharge our full duty to the dependents of soldiers and must pay all war bills. Also we should learn one of the war's valuable lessons in systematic saving and make it a happy habit. Be prepared for the War Thrift Stamp Drive and the Drivers, Monday, June 2nd.

TEACHERS EXAMINATION.
The first regular examination for teachers of the City Schools of Washington C. H., Ohio, will be held at the High School building, Saturday, May 24th 1919. Examination will begin promptly at 8 o'clock.

BURNS, CUTS, BRUISES

San Cura Ointment Relieves Pain, Draws Out Poison and Heals Promptly.

There is no better remedy for burns, cuts and bruises than the antiseptic and healing ointment called San Cura. Every person ought to have a jar on hand; it is the first and best aid to the injured in case of accident, and is the ideal remedy for so many other distressing and painful ailments besides.

For example, it is guaranteed by Blackmer & Tanquary to relieve itching, bleeding and protruding piles, eczema, tetter, ulcers, salt rheum, boils, carbuncles and pimples, or money back.

In case of old running sores, no matter how long standing, a few poultices of San Cura Ointment will draw out the poison, and leave them in such a thoroughly aseptic condition that they will heal promptly.

We advise every reader to get a jar of San Cura Ointment today, and keep it ready for an accident or emergency that may happen. 30c, 60c and \$1.20 a jar at Blackmer & Tanquary's on the money back plan.

San Cura Soap is delightful for

shampooing, because it is full of antiseptic properties that banish the germs of dandruff and other impurities from the scalp. It removes pimples and blackheads, too. 25c a cake at Blackmer & Tanquary's.

If your druggist does not have it send to Thompson Medical Co., Titusville, Pa.

Try This For Burns or Scalds

Pour Houstonia Liniment over the burn and cover with cotton; then wrap with a clean bandage. Repeat twice a day, keeping the injured member away from heat and water.

Houstonia (The Original Jones') Liniment, stops the pain—instantly—takes away the sting and inflammation. Its Antiseptic properties remove all fear of infection.

As William Grubb, prominent auto man of Chillicothe, says: "I have used it for years and find it invaluable for sore throat, colds in chest, etc., also when my children cut or burn themselves, it is the best remedy to quickly heal the wounds."

Ask for this good old liniment by its new name. Say "House-tone-e-ah" to your druggist. Large bottles are 50 cents; Household size (4 oz.) 25 cents. Keep a bottle of Houstonia Liniment always handy for emergencies or general use.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

Just imagine a house without a kitchen!

Imagine your own house if the space devoted to the kitchen and pantries and other rooms now given up to the preparation of food were yours to dispose of in some other way. It seems an absurd supposition, yet the prediction has been made in England that so-called national kitchens are to become so general that the private kitchen will no longer be necessary in the large cities and suburbs. They were adopted as a means of wartime economy and they were so successful that housewives have dared to dream of a kitchenless house. Surely in our own land, where we are supposed to be as progressive as any people in the world with regard to domestic efficiency, these community kitchens will become a fact if they do in England.

So perhaps we are justified in dreaming of our own house with out a kitchen. The idea in the community kitchens is in the main to prepare food to be served and eaten in the private dining rooms of the individual houses, though a dining room is attached to the kitchens for those who find that most convenient. Householders, however, would probably retain their own dining rooms. It is usually found most convenient to maintain also a place to watch serving dishes (so a well equipped pantry would be necessary).

Kitchenless houses are really not unknown in this country. In a good many summer colonies where there is a central eating lodge there are houses of this type. A very few suburban colonies have been established on the same principle. As their number increases a new system of house planning will develop. There will be more ground floor room, since only a small space need be devoted to the china pantry. Just imagine what your house would be if there had to be no kitchen stove, no daily delivery of food, no food waste with the cans and clutter that follow in its wake. Of course the chief advantage—at least the one that led to the establishment of national kitchens during the war, was one of economy. By this system less food is wasted and less time is required in the preparation of food.

An impossible idea, you say. Well perhaps it seems so, but it is any more preposterous than aircraft seemed ten years ago or wireless telegraphy before Marconi made it an assured fact? — New York Sun.

Handsomely engraved invitations have been received by relatives and friends in this city, issued by Mr. and Mrs. Grant Willson for the marriage of their daughter, Ruby Angeline, to Mr. Kenneth Gordon Berrie, Saturday evening, June the seventh, at half past six o'clock at the First Presbyterian church of Brunswick, Ga.

BIG PROGRAM OF METHODISTS

New York, May 19.—The Methodist Centenary announced today plans for a movement along social lines for world betterment which includes the adoption of twelve French towns on the Chateau-Thierry battlefield for reconstruction, the creation of recreation centers in many war-torn cities of France and Italy, the building of hospitals in darkest Africa and establishment of agricultural stations to teach American methods in southern Italy, Chile and other countries. Methodists everywhere are being urged to help in the work.

This vast sociological and industrial enterprise is to be carried on by department of 53,000 young men and women from the schools and colleges, more than 20,000 Methodist Episcopal churches, including both the Northern and Southern branches, are behind the Centenary movement, which is inspired by the belief of the church leaders that the world is confronted by the dangerous spectre of Bolshevism which should be met by religious influence.

ROCKETS FOR 27TH ARE ON DISPLAY

Some of the one pound rockets to be used in the May 27th fireworks display in this city are now being exhibited in Craig Bros. show window, and it is announced that some of the rockets to be used will be just eight times as large as those shown.

However the rockets will be a small part of the mammoth spectacle which will greet onlookers on the night of May 27th, as a number of huge set pieces will be included in the display, in addition to a host of other contrivances.

4TH REGIMENT BAND SECURED

Definite announcement was made by the Committee on Music, Tuesday, that the Fourth Regiment (Rainbow Division) military band had been obtained to play in this city all day and evening of May 27th.

The band will be composed of the full number of instruments and will be the identical band which was with the 166th Infantry, Rainbow Division "over there" and which only a short time ago was playing "The Star Spangled Banner" on the Rhine.

This great organization will be one of three or four bands to play here on the 27th.

PUT A STOP TO PUBLIC DANCING

Berlin, April 12.—Correspondence of the Associated Press.—Police-President Ernst's prohibition of public dancing in Berlin has been welcomed by the great mass of citizens, whose indignation had been aroused not only by the great number of balls held nightly, but also by their character. One such ball, held recently, was a beauty competition. The dance-fever has been raging in Berlin since the wartime prohibition against public dances was withdrawn.

Reports from provincial towns show similar conditions. The soldiers of a garrison in a small town in Brandenburg sent a delegation to the commanding officer to protest against requiring them to begin drilling at 8 a. m. when they had been dancing until 5 a. m.

WORSE THAN DEADLY POISON GAS

Kidney disease is no respecter of persons. It attacks young and old alike. In most cases the victim is warned of the approaching danger. Nature fights back. Headache, indigestion, insomnia, lame back, lumbago, sciatica, rheumatism, pain in the loins and lower abdomen, difficulty in urinating, all are indication of trouble brewing in your kidneys.

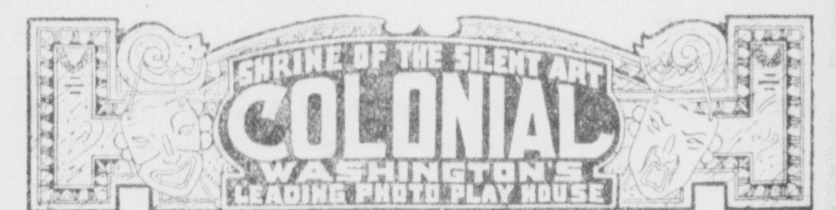

When such symptoms appear you will almost certainly find quick relief in GOLD MEDAL Haarem Oil Capsules.

This famous old remedy has stood the test for two hundred years in helping mankind to fight off disease. It is imported direct from the home laboratories in Holland, where it has helped to develop the Dutch into one of the sturdiest and healthiest races in the world, and it may be had at almost every drug store. Your money promptly refunded if it does not relieve you. Be sure to get the genuine GOLD MEDAL Brand. In sealed packages, three sizes.

for Return of Wire Systems

(By Associated Press)
Washington, May 20. — President Wilson's message to the extraordinary session was read today in the House and Senate with most members in their seats. In the Senate the Clerk, Harry Rose, began reading promptly at noon but there was a delay of half an hour in the house while members discussed priority of some of the hundreds of bills which were dropped into the hopper yesterday.

Copies of the President's message were distributed among the Senators and representatives and some of them scanned the printed pages without listening to the reading.

Generally members of both Houses and crowded galleries gave close attention. Members of the Senate smiled at the President's mention of the return of telegraph and telephone companies to private control.

(By Associated Press)
Washington, May 19. — Senator Lodge, Republican Leader and chairman of the foreign relations committee, in a statement tonight declared that the revised League of Nations is "unacceptable" and predicted it would not be accepted by the majority of the Senate without amendment.

Characterizing the new league covenant, as included in the peace treaty as "distinctly worse than the old and more dangerous to the peace of the world and to American rights and interests," Senator Lodge declared that none of the suggestions from the Senate or from Elihu Root had been carried out.

GREAT EPIDEMIC
OF TYPHUS HAS
KILLED HOSTS

Bucharest, April 10.—(By Mail)—The typhus epidemic which has claimed tens of thousands of lives in Rumania in the last two and a half years is still smouldering but American Red Cross physicians who are watching the sporadic outbreaks believe that the disease has "burned itself out." Their greatest worries now are the dangerous outbreaks of small-pox and isolated cases of cholera.

The Near East today, according to American, British and French physicians who have completed their surveys, is ripe for an out break of cholera and the plague. Under nourishment, famine and the strain of war upon the civilian and military populations has undermined the health of the nations of the Balkans.

The past winter was a terrible one. Refugees are returning to their homes to find them heaps of ruins. They are without everything. If it were not for the American Food Mission and the shiploads of food being brought into Rumania and under the auspices of the American Red Cross, Rumania today would be a nation of starving people.

Local Rumanian physicians are fighting hard in co-operation with American doctors to confine the small-pox and cholera cases to certain districts. In one hospital American doctors found nine children dead from small pox. The nurses working day and night to attend to the living cases had no time to remove the dead children from their beds.

The Red Cross is fighting the small-pox epidemic particularly in the Dobruja region. Medical supplies and units one doctor and two nurses are sent by a special Red Cross food boat which plies up and down the Danube to the river towns whence they travel inland to the centers where the disease is making the greatest inroads.

UKRAINE AND
POLAND THE KEYS

Vienna, April 2, (Correspondence to the Associated Press.—That Poland and the Ukraine are the keys to Russia is the conviction of the Associated Press correspondent who has traveled over these two countries and interviewed dozens of the highest offices, officials and citizens.

There has been more talk than action concerning Poland as a barrier to Bolshevism but there has been not only no talk but some unfavorable action regarding the Ukraine which country apparently is almost unknown to a majority of the people in the entente countries. The Ukraine has been visited in a casual manner by strolling officers and missions. A single American who attempted to visit Kiev, capital of the Russian Ukraine, was prevented by the French at Odessa according to the statement made to the Associated Press by Gen. Petlum at his railway car capital on a siding at Proskurov.

Notify War Work Council.

Fayette county parents whose sons are at Camp Sherman, awaiting final release from the service, are urgently requested to notify the War Work Council at once so that an effort may be made to secure from the Camp Sherman commandant, a furlough enabling them to attend the Fayette County Welcome Home for World War Soldiers and Sailors on Tuesday, May 27th.

THIS IS IMPORTANT. Everybody is anxious that every Fayette County boy be here on May 27th to receive the welcome home of the people of the city and county.

Anyone knowing of any Fayette County boys who are yet at Camp Sherman or at any other nearby demobilization camp, are urged to inform the War Work Council at once.

Promptness is essential as the War Work Council should have as much time as possible to complete arrangements for their attendance. Rush all information at once either in person or by phone to

Fayette Co. War Work Council.

HACKENSMITH BEATS BURNS IN STRENUOUS BOUT

Winner is Promptly Challenged by Matsuda For a Finish Bout Here on Thursday Night, May 29.

Bout Monday Night Pronounced One of Best Ever Seen in the Middle West.

In the presence of a large crowd Monday evening, Jack Burns, son of the famous Farmer Burns, of Omaha, Neb., was defeated two fall out of three by Young Hackensmith, of Boston. The contest was lively from start to finish and was one of the most interesting matches staged in Ohio in recent months.

A clever exhibition between Lawrence Link and George Pappas lasted thirty minutes in which neither one was thrown. The main attraction of this bout was the amusement created by "Spaghetti" Pappas.

In the main bout Burns was out-weighted almost ten pounds by Hackensmith. When the two men went to the ring Burns' weight was 142 while his opponent weighed in at over 151.

Both men seemed very evenly matched in the first period, Hackensmith tried time after time to put a body scissors on Burns but the "Ohama Wonder" did not seem to be worried by this system of attack. Hackensmith tired of this and began planning for a toe hold. This soon proved his undoing, as Burns, always the master of the toe-hold, was soon putting one after another on Hackensmith.

At the end of 45 minutes and 30 seconds Hackensmith raised his hand to the referee that a toe hold, which Burns was applying vigorously, was enough for that fall.

Hackensmith limped to the ring when the men went in the second time but seemed stronger than ever. Hackensmith soon put a puzzler on Burns in the form of an arm scissors and arm lock. The referee patted "Hack" on the back at the end of 18 minutes and 20 seconds, giving him the fall.

The third fall was won by Hackensmith with brain work rather than by muscular effort. Both men were striving to get their favorite holds

when Hackensmith suddenly grabbed Burns by an arm and a leg and started swinging him like a meal sack. Several times the crafty Hackensmith whirled him around and around, and then threw him to a corner of the ring where he was unable to regain his feet because of dizziness and the blow from the fall. Hackensmith rushed over to the prostrate Burns and applying a body scissors and an arm lock easily put Burns' shoulders on the mat.

Fans who have witnessed matches in the larger cities declared that the match between Hackensmith and Burns was the equal or even better than any match they had ever witnessed. Before the final fall in the bout it was announced by Chic Saylor that Matsuda would wrestle the winner for a finish bout. After the match it was arranged that Hackensmith is to meet Matsuda on the 29th of this month at catch weights. There is quite a little rivalry between the two men, and the match will doubtless prove an interesting show.

It will be recalled that Matsuda was defeated by Hackensmith in this city recently when Hackensmith, by a clever trick as he was being put down and out for the second fall, fooled the Jap and won the decision.

Matsuda is a wonder for a man of 138 pounds, and while his opponent, whom Burns from the ring after his defeat pronounced the cleverest man he had ever wrestled, will weigh between 152 and 155 pounds.

NOW STUCCOING MEMORIAL ARCH

Early Tuesday morning the work of stuccoing the Memorial Arch was started and it was stated that if the progress of the work is not interrupted by inclement weather conditions the huge structure will be entirely completed by Saturday of this week.

The carpenter work has virtually been finished and a huge American flag is floating proudly from a bronze flagstaff on the highest part of the arch.

With the progress of every day's work the beauty and grandeur of the arch is becoming more apparent and many tributes are paid to its effectiveness and to the rapidity with which it is being rushed to completion.

When the great, white arch stands completed, surrounded by the beautiful green trees, it will present a most imposing appearance.

RAINS DELAYING CORN PLANTING

Fayette county farmers, with the period of corn planting well advanced and not over 30 percent of the corn planted, are becoming very anxious for a cessation of the rains so that they may complete their work as speedily as possible, and when the ground is in condition to work once more, there is every indication that from dawn until dark the corn planters will be kept busy in a mad rush to complete the planting in order to insure a normal crop.

Corn planting usually opens about May 1st and by May 20th is usually 75 to 90 percent completed, so that there is reason for some anxiety at the present time.

AIRPLANE WILL PUT ON STUNTS

The committee on arrangements announces that there will be at least one airplane here for the 27th celebration to perform stunts over the city and entertain the huge crowd which will be on hand.

It was suggested some time ago that a plane might possibly be secured to be piloted by a local flyer. This would prove a great attraction inasmuch as it would be piloted by one of Fayette county's returned flyers.

Whether the plane that has been promised will contain a local man has not been announced, however.

\$500 more than the price of a Maxwell will buy you mere size only

FOR a Maxwell has every single modern device that any car selling within \$500 of its price possesses.

The only thing an extra \$500 will procure is size—a few inches of wheelbase, 2 inches of tire, 50 pounds more of engine, and 5 or 10 other things that a \$20 note would easily cover.

Then you run the risk of not getting as good a car as a Maxwell.

For it is one thing to build a 10,000 a year car and another to build a 50,000 a year car.

The chances are in favor by far of finding the real merit in the latter.

The Maxwell has a record run of 300,000—all of one model—behind it.

That means sureness of design, freedom from "temperament," reliability plus, economy for certain, and always a ready market value.

A larger car costs more to maintain. A smaller car has less luxury.
